

# FAUZIYYA NURA AHMED

## SOFTWARE DEVELOPMENT FACILITATOR | FULL-STACK WEB DEVELOPER

Kano, Nigeria • +234 08165387820 • fauziyyanuraahmad@gmail.com  
GitHub: [github.com/fauziyyanura](https://github.com/fauziyyanura) • LinkedIn: [linkedin.com/in/fauziyyanura](https://www.linkedin.com/in/fauziyyanura)

### PROFESSIONAL SUMMARY

Software Development Facilitator and Full-Stack Web Developer with hands-on experience designing and delivering beginner-friendly web development training, mentoring learners through practical projects, and building full-stack applications. Experienced in teaching HTML, CSS, JavaScript, PHP, MySQL, SQL, Git/GitHub and database concepts, alongside professional development experience with React, Node.js, Express.js, MongoDB and Supabase. Skilled at breaking complex technical concepts into clear, practical learning steps and guiding learners from fundamentals through working projects. Also experienced in EdTech product development, user research, MVP development, testing and deployment.

### CORE TECHNICAL SKILLS

**Frontend:** HTML5, CSS3, JavaScript, React.js, Responsive Design, UI/UX Principles, Vite, Tailwind CSS

**Backend:** Node.js, Express.js, PHP, REST APIs, API Integration

**Databases:** MySQL, SQL, MongoDB, Supabase, Database Concepts, CRUD Operations

**Development Tools:** Git, GitHub, GitHub Desktop, Postman, Render, Netlify, cPanel

**Additional:** AI-assisted Development, Prompt Engineering, Technical Mentoring, Presentation & Facilitation, MVP Development, Rapid Prototyping

### FACILITATION & TRAINING EXPERIENCE

#### Facilitator | AUA Web Technologies

3 Feb – 3 Mar 2026

- Delivered twice-weekly web development training over one month, following a structured learning roadmap covering frontend development, Git/GitHub, PHP, MySQL/databases, PHP + MySQL integration, CRUD operations and a final project.
- Designed and presented beginner-friendly lesson notes and slides covering HTML, CSS, JavaScript, PHP, SQL/MySQL, database concepts, Git/GitHub and practical web development workflows.
- Taught Git and GitHub fundamentals, including repositories, commits, branches, push/pull workflows, GitHub Desktop and local-to-remote project workflows.
- Taught MySQL fundamentals including databases, tables, rows, columns, primary keys, SQL and core CREATE, INSERT, SELECT, UPDATE and DELETE operations.
- Guided learners through frontend → backend → database architecture, including PHP/MySQL connectivity and form-to-database workflows.
- Used practical exercises, demonstrations and a final project to help learners apply concepts in working web applications.

#### Software Development Facilitator | Youth Technology Bootcamp

2026

- Facilitated hands-on web application development for young learners, guiding teams from problem identification and ideation to prototyping, app development and presentation.
- Taught practical use of modern development tools, including Google AI Studio and Lovable, while keeping the learning process project-based and accessible.
- Supported multiple student teams through debugging, iteration, publishing and final project presentations.

#### Student Mentor / Technical Tutor | ElevateHER Innovation Space Ltd

Jan 2025 – Present

- Provide technical guidance and support to aspiring developers through collaborative, project-based learning.
- Explain development concepts, support learners with practical challenges, and encourage problem-solving and independent learning.

### PROFESSIONAL & TECHNICAL EXPERIENCE

#### Co-Founder & Chief Operating Officer (Technical Product Development) | Schooby Limited

Aug 2025 – Present

- Contribute to the end-to-end development of an EdTech platform, translating user and business needs into practical digital products and technical solutions.
- Work across frontend and backend development using React/Vite/Tailwind CSS, Node.js/Express.js and database technologies including Supabase/MongoDB.
- Support product architecture, user research, MVP iteration, testing, deployment and technical roadmap planning.

- Collaborate with the founding team to validate product problems and turn concepts into functional prototypes and deployable features.

### **Strategy & Research Lead | ElevateHER Business Platform**

*Feb 2025 – Present*

- Supported platform development and deployment while contributing to technical strategy and product direction.
- Led user-persona research to inform product design and improve user experience.

### **Student SIWES Representative | Ministry of Environment, Kano State**

*Aug 2020 – Feb 2021*

- Managed departmental records and attendance and coordinated information flow between students and officials.

## **SELECTED FULL-STACK PROJECTS**

### **Flower Delivery E-Commerce App — MERN Stack**

Built a full-stack e-commerce application with authentication, cart functionality and order management; integrated MongoDB and REST APIs with Express.js/Node.js and deployed frontend and backend separately.

### **Schooby EdTech Platform — React / Vite / Tailwind / Supabase**

Contributed to development of an EdTech platform across product research, UI implementation, backend/data integration, testing, iteration and deployment.

### **Recipe Finder Website — HTML / CSS / JavaScript / External API**

Created a responsive recipe search interface with dynamic content loading and external API integration.

### **Hotel Booking App — HTML / CSS / JavaScript**

Developed an interactive booking interface with form validation, responsive layouts and user-focused navigation.

## **EDUCATION & PROFESSIONAL TRAINING**

### **Full-Stack Web Development Program | ElevateHER Innovation Space Limited | 2024**

Intensive training in HTML, CSS, JavaScript, React, Node.js, Express.js and MongoDB; built and deployed multiple full-stack applications; recognized as a top-performing student.

### **AI Generalists / AI Innovation Sprint Program | 2025**

Focused on prompt engineering, rapid prototyping and product validation; co-founded a startup and contributed to technical development from concept to MVP.

### **B.Sc. Zoology | Federal University Dutse, Nigeria | Feb 2023**

Developed analytical, research, data-analysis and problem-solving skills through scientific study and fieldwork.

## **CERTIFICATIONS**

- McKinsey Forward Program — McKinsey & Company — Certificate
- Full-Stack Web Development Certificate — ElevateHER Innovation Space Ltd
- Graphic Design Certificate — She Leads Africa (SLA)
- Certificate of Merit — NAFDAC / NYSC Community Development Service (CDS)
- Certificate of Commendation — Pollution Control Lab
- Certificate of Attendance — NTBA Conference

## **FACILITATION & LEADERSHIP STRENGTHS**

Technical communication • Beginner-friendly instruction • Hands-on/project-based learning • Mentoring • Team coordination • Problem-solving • Product thinking • Public speaking • Collaborative development • Learner support

## **LANGUAGES**

English — Fluent | Hausa — Native
